

834 Mixed Methods in Design Evaluation
Research Design Weekly Assignment 9
Assignment: Ethics in Research Involving Human Participants

Due: We will work on this in class.
Hand in with final assignment.

Read: Creswell Chapter 4.

SFU Research Ethics <http://www.sfu.ca/vpresearch/ethics/>

- Review University Research Ethics Review (R20.01) in particular the requirements for informed consent (section 5).
 - Register for the online database and review forms required for an application.
1. Write a short paragraph describing why you think your study will be classified as low risk.
 2. Create an informed consent form based on the appropriate template from the SFU Research Ethics site.
 3. Write a short paragraph discussing how you will maintain anonymity of your subjects before, during and after your study.
 4. Write a short paragraph discussing how you will secure any non-digital or digital data you will collect during your study.
 5. Write a short paragraph discussing how you will ensure that the results of your study are disseminated back into the community your participants came from in such a way as to add value to that community.
